Advanced Structural Components material, select the applicable answer:
☐ Combustible / ☐ Non-combustible / ☐ Both

Locations where Advanced Structural Components are used, select the applicable answer:
☐ Floor Assemblies / ☐ Floor-Ceiling Assemblies / ☐ Roof-Ceiling Assemblies

1. The Town of Edinburgh is required by the State Code to collect information on structures that use advanced structural components. These components are lightweight combustible assemblies (i.e. I-joists, trusses, have less mass cross-sectional area than sawn lumber of equivalent proportions used in an equivalent application) and may be fabricated of combustible and/or non-combustible materials.
2. This information is required to be shared with first responding fire stations and the 911 call center for responding firefighter notification.

Please ask if you have any questions concerning your responses to this form.

Sincerely,

Julie Young
Planning Director
